

# Providing a Comprehensive Digital Security Solution for Financial Institutions

Success Story: Credit Union of America

## The Customer

Credit Union of America

## Industry

Finance, Banking

## Location

Wichita

## Duration

1 Month

## Services

- Intrusion Alarms
- Video Surveillance
- Access Control

## The Challenge

Credit Union of America was looking for an up-to-date and cost effective solution to simplify the management of security across multiple branches spread throughout Kansas.

## The Solution

ADS designed and installed integrated systems for video surveillance, intrusion detection and access control solutions that work together with improved functionality and ease-of-use.

## The Result

ADS was able to provide a one-stop-shop for the video surveillance, building access control and alarm system, eliminating the need to contact multiple providers when needing assistance with their systems. Additional features and functionality was also made possible through configuring the three systems to work together.

*"A lot of the time when we need to access the cameras, we are doing it for research purposes and this system was extremely easy to use. The time bar when reviewing previous dates and times was hands down the easiest system I have ever used!"*

- Chad Fenn, Woodlawn Branch Manager, Credit Union of America
